

Level Measurement Using Guided Microwave Technology Training

Course Objective:

This one day class is for operators and technicians who have responsibility for VEGA Guided Microwave gauges using PACTware software. Individuals will become familiar with the physics, start-up, operation, calibration and troubleshooting techniques needed to gain an overall understanding of the interaction between the process and the measurement device.

****ALL TRAINEES MUST HAVE A LAPTOP COMPUTER****

Agenda:

- Basic Theory of Operation for Guided Microwave (TDR) Gauges
- Summary of Radar Models
- Best Practices for Installation
- Overview of Software (PACTware)
- LAB Scenarios – Hands-On
- Troubleshooting
- Multiple Choice Test & Review of Test

TRAINING CERTIFICATES WILL BE PROVIDED
