

Flow Measurement Training

Course Overview

Basic Flow Training: This course will provide a Basic understanding of numerous flow technologies as well as concepts applicable to equipment from different manufacturers. Following this introduction, the instructor will provide in-depth training based on the specific technology needs of the customer. This is a one day course.

Advanced Flow Training: This course provides in-depth training on vortex, magnetic, ultrasonic and Coriolis flow meters. The session will be a combination of classroom and hands-on training and is a three day course.

Topics Covered:

- Differential Pressure Transmitters
- Vortex Shedding Flow Meters
- Electromagnetic Flow Meters
- Coriolis Flow Meters
- Ultrasonic Transmitters
- Thermal Dispersion Flow Meters

TRAINING CERTIFICATES WILL BE PROVIDED
