

Join us for the next Analytical Gas Solutions Snapshot in your area! Spend the afternoon with our technical experts and learn about the latest in Using Tunable Diode Laser Technology to Increase Fired Heater Reliability. Each session is approximately three hours in length and lunch will be provided.

#### TOPICS COVERED:

- Simplified Combustion Stoichiometry and the effects for fuel rich vs fuel lean on flue gas composition
- Impact of operating a fired heater with too much excess oxygen
- How excess oxygen affects heat transfer within a combustion system
- What to consider when selecting a flue gas analyzer for combustion
