

Instrumentation and Analytical Solutions, Service & Training

## GENERAL INDUSTRY

TechStar is a manufacturers representative company founded in 2001. Based in Deer Park, Texas, our company has extensive experience with all industries where industrial automation and process control are present. From the high importance of quality control in the food and beverage industry to the rugged requirements of heavy industry, we strategically represent a small number of quality instrument manufacturers. We pride ourselves on being knowledgeable and responsive in the technical sales, service, and training of our customer's instrumentation and process control needs.
